

Distributed Systems

COMP90015 2021 Semester 1
Tutorial 02

Sockets

Q1. Briefly discuss three aspects of the Socket interface.

Q2. Briefly explain three possible failures that can happen when using UDP for communication.

Q3. Briefly explain aspects of TCP that address issues not addressed by UDP.

Q4. List the steps involved at the client and at the server to establish a TCP stream socket connection.

UDP vs TCP

Client - Server Demo
